"Excellent service and personal attention for my neck issues. I have had neck pain and headaches for years. Dr. Kauffman was able to eliminate my pain and improve my range of motion in a very short time. He even was able to accomodate my schedule by taking me early in the morning and a few times after I got off work later in the evening. Highly Recommend!"

We treat people every day with conditions such as

- Neck pain
- Back pain
- Headaches
- Foot and ankle pain
- Shoulder pain
- Whiplash injuries
- Sciatica
